OYEWOLE OLAMIDE ABRAHAM

United Kingdom | 07424925754 | oyewoleolamide253@gmail.com

Results-driven Logistics and Operations professional with over 5 years of experience in equipment coordination, supply chain operations, and cross-functional collaboration across the shipping, energy, and telecommunications sectors. Skilled in managing container logistics, depot scheduling, turnaround monitoring, and maintenance coordination to support efficient, cost-effective operations. Proficient in using Destin8, CNS, EPOS, SAP (FI/FSCM), EDI, and Microsoft Office tools to track inventory, ensure documentation accuracy, and streamline reporting. Adept at navigating regulatory and compliance requirements, resolving operational challenges, and contributing to service excellence through strong stakeholder communication and planning. Known for delivering high-quality support in fast-paced, deadline-driven environments.

SKILLS AND COMPETENCIES

- Equipment Coordination
- Logistics Planning and Management
- Supply Chain Planning and Management
- Inventory Control and Management
- Cost Optimization
- Depot and Terminal Coordination
- MandR (Maintenance and Repair) Liaison
- Process Improvement and Accuracy
- Critical Thinking and Problem Solving
- Technical Documentation and Reporting

- Change Management Processes
- Cross-Functional Team Collaboration
- Communication and Interpersonal Skills
- Regulatory Compliance Knowledge
- Data Integrity and Accuracy
- SAP ((FI, FSCM, EPOS)
- Stakeholder Engagement
- Vendor Management
- Operational Excellence
- Turnaround Time Monitoring

EDUCATION

- MSc. Information Technology, University of West England, United Kingdom, 2024
- BSc. Information Technology, University of Education, Winneba, Ghana, 2014

WORK EXPERIENCE

Logistics and Operations Officer | June 2024 - Present

Hapag Lloyd, United Kingdom

Role Overview: Led logistics coordination and container operations across 12+ UK depots, managing the movement and utilization of over 1,000 TEUs monthly. Supported strategic supply chain execution and asset optimization efforts, contributing to a 15% reduction in overall equipment imbalance costs and improved operational efficiency in line with Hapag-Lloyd's global KPIs.

- Reduced container imbalance costs by 15% by planning and executing container repositioning strategies across 10+ UK
 depots, optimizing equipment flow in line with trade forecasts and import-export trends.
- Oversaw monthly inventory of 1,000+ TEUs, ensuring accurate depot positioning, real-time updates, and inventory balance across key locations to support operational continuity.
- Improved container turnaround time by 20% through proactive tracking of overdue assets, initiating condition surveys, and coordinating rapid recovery actions to boost utilization efficiency.
- Managed over 100+ empty container movements per month, ensuring precise release instructions, depot assignments, and system updates in coordination with transport and depot teams.
- Processed and analyzed monthly logistics costs using SAP, achieving 100% on-time cost reporting and supporting leadership with variance analysis and cost optimization insights.
- Collaborated with internal stakeholders, transport partners, and depots to maintain high service levels, timely deliveries, and minimal delays, contributing to improved customer satisfaction metrics.

Logistics and Equipment Coordinator | June 2021 – January 2023

Energy Vision

Role Overview: Directed logistics and equipment operations across \$10M+ energy infrastructure projects, overseeing the planning, transport, and allocation of critical assets to 50+ field sites. Ensured 100% on-time delivery compliance, accurate inventory control, and cost-efficient deployment of equipment in alignment with dynamic site schedules and technical requirements.

- Managed end-to-end logistics for 50+ field installations, improving on-site delivery reliability and reducing equipment delays by 30%, directly enhancing project scheduling and execution.
- Introduced a stock monitoring system that decreased inventory discrepancies by 25%, improving asset traceability and reducing lost or misallocated equipment incidents.
- Streamlined maintenance and repair (M&R) coordination, implementing vendor communication protocols that reduced turnaround time by 40%, accelerating equipment readiness for deployment.
- Led cost control and logistics spend reporting through SAP, achieving annual savings of \$20,000 by identifying inefficiencies and optimizing transport, storage, and repair workflows.
- Partnered closely with project managers and site teams to ensure logistics strategies aligned with technical and scheduling requirements, supporting safe and efficient energy project execution.

Operations Officer | February 2019 – June 2023

Huawei Technologies Co., Ltd.

Role Overview: Delivered end-to-end logistics and operational support across Huawei's UK supply chain, overseeing the movement and documentation of 100+ monthly equipment transfers. Ensured 100% regulatory compliance, real-time tracking accuracy, and uninterrupted delivery workflows in a high-volume, deadline-driven environment.

- Coordinated over 100+ monthly equipment transfers, managing delivery scheduling and depot communications to support nationwide infrastructure projects.
- Maintained 100% compliance with customs and regulatory documentation standards, ensuring timely clearances and minimizing shipment delays.
- Handled internal and external logistics inquiries, resolving issues promptly and maintaining a 95% customer and partner satisfaction rate.
- Generated and analyzed daily and monthly logistics reports, tracking asset movement, identifying delays, and supporting
 performance reviews across the supply chain.
- Supported deployment of a tracking system, improving shipment visibility and increasing data accuracy by 35%, reducing manual errors and reporting delays.

Equipment and Logistics Officer | March 2018 – January 2019

Infravision Limited

Role Overview: Led end-to-end logistics, inventory management, and supplier coordination for telecom infrastructure rollouts across 15+ project sites, ensuring 100% on-time equipment delivery and maximizing operational uptime through proactive asset planning.

- Oversaw logistics operations for 15+ telecom infrastructure projects, coordinating transport, site delivery, and warehouse scheduling to meet aggressive build timelines.
- Improved equipment uptime by 20% by implementing preventative maintenance scheduling and coordinating servicing cycles with third-party vendors.
- Reduced asset loss and project delays by introducing an enhanced tracking system, improving visibility and accountability for high-value telecom equipment.
- Managed inbound and outbound flows with depots and suppliers, streamlining scheduling and turnaround times to support continuous project execution.
- Ensured 100% accuracy in SAP data entries, maintaining real-time asset status, location tracking, and audit-ready logistics documentation.

EXPERTISE

- **End-to-End Logistics Operations:** Hands-on experience managing full-cycle logistics processes; from scheduling inbound/outbound equipment movements to confirming depot releases and coordinating with hauliers.
- SAP, EDI & Operational Systems Proficiency: Advanced working knowledge of SAP (FI/FSCM), EDI systems for cost tracking, equipment status updates, and release instructions. Skilled in delivering accurate and timely operational reports (daily, weekly, and monthly) to track KPIs, container flow, and equipment status.
- Turnaround Time Monitoring and Asset Utilization: Proven ability to proactively monitor container turnaround times, trace overdue equipment, and coordinate on-hire/off-hire surveys.
- Maintenance and Repair (MandR) Coordination: Skilled in working with depot vendors and internal M&R teams to arrange timely equipment repairs, minimize downtime, and ensure compliance with operational quality standards.
- Cross-Functional and Customer-Focused Collaboration: Strong interpersonal skills with a track record of collaborating across Sales, Customer Service, and Operations teams to align logistics strategies with customer commitments and site requirements.
